

# Any truck. Any job. Miller.

Work truck solutions from the industry leader.

It's a serious claim, and Miller means serious business. We get work trucks ready to support welding, cutting or gouging jobs of all sizes — and we get those trucks ready to operate a wide range of equipment with electric power, compressed air and hydraulics. Miller will equip multipurpose vehicles, like mobile repair trucks and service trucks. Miller will outfit specialized vehicles too, like lube, bucket and crane trucks. For maximum performance and maximum versatility, Miller has the right equipment for your truck to get the job done.

## Any truck. Any job. Miller.

Work truck solutions from the industry leader.

# Any truck. Any job. Miller.

## Miller® machines are ready to work for you.

Welding and gouging. Powering electrical and pneumatic tools. Charging batteries, providing hydraulic power and more. For virtually every job your work truck will encounter, there's a Miller machine that can do the job. Several work truck solutions are shown here; for more details on our industry-exclusive technologies, visit [MillerWelds.com/truck](http://MillerWelds.com/truck).

### Special Features

Available as options on select models of the Trailblazer, Bobcat and EnPak lineup:

**Excel™ Power/Inverter™ Technology:** Produces up to 2,400 watts of clean generator power at fuel-saving idle speed.
